Candidate Selection Process

Chris Berry
4TH EOM Team
22-24 May 2001

Purpose

- Develop an outline of criteria to select and prioritize reparable items for repair sourcing.

Objective

- Determine an approach and criteria to categorize and evaluate candidate items (e.g FSC, Commodity, Weapon System) for sourcing. WHAT SHOULD BE CONSIDERED and WHAT MAKES SENSE!

Approach

- Examine peculiarities associated with various commodities and challenges to be considered.
- Determine adverse impact, if any, of removing organic capability.
  - Develop alternatives

Deliverables

- Draft Selection process and Criteria
- Draft prioritization process.
